

Disaster Recovery Advisors

LLC | CAPABILITY STATEMENT

FEMA PUBLIC ASSISTANCE - REIMBURSEMENT - CLOSEOUT

DRA provides practical support for public agencies, utilities, eligible private nonprofits, and engineering and recovery firms managing disaster recovery grants. Engage DRA for a defined task, ongoing project assistance, or integrated subcontract support.

CORE CAPABILITIES

Public Assistance program support

Project development, eligibility review, scopes of work, and responses to requests for information.

Reimbursement and cost documentation

Invoice and payment records, procurement files, force account costs, and project cost reconciliation.

Project closeout

Final accounting, documentation gap reviews, scope verification, and closeout package preparation.

Grant and project management

Project status, deadlines, issue tracking, compliance requirements, and recipient coordination.

Mitigation and recovery team support

Mitigation grant documentation, quality review, and added capacity for prime contractors.

PRINCIPAL EXPERIENCE

Andrew A. Caraballo, Principal

Nearly a decade of disaster recovery experience across five states. Former Volunteer Fire Captain and CAL FIRE Hazard Mitigation Inspector.

California

Camp Fire, Dixie Fire, North Bay Fires, North Complex Fire, and severe winter storms. Utility recovery, grant administration, debris quality assurance, infrastructure inspections, and closeout.

Florida

Hurricane Irma and Hurricane Ian. Public Assistance project delivery, debris and demolition inspections, field reporting, and compliance documentation.

Georgia

Hurricane Helene. Program delivery management, applicant coordination, project development, and specialist coordination.

New Mexico

Hermit's Peak / Calf Canyon Fire Assistance Program. Third-party claims review, documentation validation, and requests for information.

New York

Hurricane Sandy and COVID-19 Public Assistance. State recovery administration, financial inspection reports, final accounting, closeout, and audit responses.

Experience includes assignments through prior employers and contractors: Fluor, Tidal Basin, Tetra Tech, Disaster Recovery Experts, and Cal OES.

CALIFORNIA & FLORIDA | NATIONWIDE SUPPORT
